Featured Customer

Linda Ruppel, DDS., Eagle

We spent the better part of last summer working on a design/build Japanese-style landscape project at Linda Ruppel's house. The old-style farmhouse with 13-year-old existing trees lent itself well to the full-shade needs of the garden. The garden is a combination of the Hill and Stroll style gardens of Japan.

This project included over 55 tons of stone, 150 yards of soil and numerous unique plantings. The approximately 700 square foot Trex deck was built with a natural bamboo pergola and allows for a great view of the garden. Our crew created a Stroll path lined with landscape lights that guides her along a waterfall and 40 foot creek which flows into a pond adjacent to the tea house. A bridge and pagoda compliment the water feature and Koi will be added this spring. **Black Dog Woodworks** did a fantastic job creating the Japanese-style Teahouse and Tori gate.

Thanks, Linda for putting up with us all summer! We really enjoyed the vegetables!

\$25 OFF

If you refer a friend that becomes our customer, you will receive \$25 off your next mowing service.

UPCOMING SERVICES

MARCH

Spring Pruning/Cleanup
 Mowing begins
 Pre-emergent Application
 Horticultural Oil Application

APRIL
